

OPTICARE

Product information
SwiNco Opticare Milk
(code: 2100)

ABOUT OPTICARE MILK

- Opticare Milk is a milk replacer for piglets and can be used as a supplement to sow's milk.
- The product is a fine powder with a creamy white colour and a typical milk smell. It is packed in 25 kg bags.
- It is best to use the product within 6 months of the production date.
- Store in a clean, cool and dry place.
- To maintain freshness, keep any partially-used bag closed.
- This product contains blood plasma as an ingredient.
- The product is stable in solution up to five days.

**MORE AND UNIFORM
PIGLETS AT WEANING**

BENEFITS OF USING OPTICARE MILK

- More piglets weaned on the sow, therefore fewer foster sows.
- Acts as boost to natural sow milk.
- Heavier, healthier and more uniform piglets at weaning.
- Increased feed intake and better preparation for weaning.
- Product dissolves easily in water and is very palatable.
- High solubility with minimal fat separation and protein flocculation.
- The product is specially developed for all artificial rearing systems –
 - Rescue decks
 - Farrowing house cups
 - Round creep feeders

MIXING INSTRUCTIONS

- Mix 150 grams of product with 1 litre of warm water.
- Water needs to be at 55 degrees Celsius at mixing.
- Start feeding piglets from day 2 after birth.
- Use only fresh clean water for mixing milk.
