

ABOUT OPTICARE PELLET

- Opticare Pellets are a highly digestible pelleted creep feed for young piglets.
- Opticare Pellets consists of a high percentage of milk products and high quality, safe animal proteins.
- The product is a complete feed in pelleted form.
- It is packed in 25 kg bags and it is best to use the product within 6 months of the production date.
- Store in a clean, cool and dry place.
- To maintain freshness, keep any partially-used bag closed.
- This product does *not contain blood plasma*.

**THE BEST START FOR
YOUNG PIGLETS**

BENEFITS OF USING OPTICARE PELLET

- Opticare Pellets are very palatable for young piglets, and encourages feed intake.
- Only highly digestible ingredients are used in the feed.
- Opticare Pellets are developed to support and maintain intestinal health.
- Opticare Pellets provide better gains and feed efficiency with pelleted feed due to an improvement in nutrient digestibility.

MIXING INSTRUCTIONS

- The product can be fed ad libitum from 7 days of age until 5 days after weaning.
- The product can be mixed with warm water (2 litres of warm water per kg product), to be fed as liquid feed after weaning.
- The product can also be mixed with the weaning feed, to ensure a smooth transition until 5 days after weaning.
